# UNITED STATES PATENT OFFICE.

GEORGE F. GIESECKE, OF LEIPSIC, SAXONY, GERMANY.

## DESIGN FOR A FONT OF COMBINATION TYPE ORNAMENTS.

SPECIFICATION forming part of Design No. 17,572, dated August 2, 1887.

Application filed June 16, 1887. Serial No. 241,563. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, GEORGE F. GIESECKE, of Leipsic, in the Kingdom of Saxony, Empire of United Germany, have invented a new Design for a Font of Combination Type Ornaments, of which the following is a specification.

The nature of my design is clearly shown in the accompanying typographic impression, to which reference is made; and it consists of a series of types numbered from 1 to 34, inclusive, representing sections of folded drapery and of folded drapery combined with floral ornaments, as shown. An additional typographic impression shows the manner of forming an entirety by combining the various types constituting the font, and presenting, when combined, the appearance of a curtain suspended from a curtain-pole and drawn aside upon the right hand and left hand. The types numbered 12, 14, 15, 16, 17, 13, 33, and 34

show, in connection with the drapery, the sections representing the curtain-pole and rings used in connection with the drapery.

Having now set forth my invention, I claim as new—

The design for a font of combination type ornaments, as shown and described, the same consisting of a series of types numbered from 1 to 34, inclusive, representing sections of folded drapery, folded drapery combined with floral ornaments, and folded drapery combined with sections representing a curtain-pole and rings.

In testimony whereof I have signed my name to this specification in the presence of two subscribing witnesses.

GEORGE F. GIESECKE.
