ANNOUNCEMENT.

READ THIS PAGE CAREFULLY BEFORE ORDERING.

 OUR success in supplying the printers of America with a high grade of Wood Type and Printers' Wood Goods has been most gratifying to us. Our product has been constantly improved, for we have fully realized that the higher the quality of our product the greater would be the demand. Our trade now extends around the world, and American printers' furniture and wood type is now well known in all countries where the printing press has made any appreciable advancement.

We have succeeded the old and well-known firms of the Wm. H. Page Wood Type Co., of Norwich, Conn., S. Simonds & Co., of Chicago, Ill., and the Morgans & Wilcox Mfg. Co., of Middletown, N. Y. The experience and accumulations of these firms have been added to our own. We are better prepared than ever to serve our patrons.

Our main office and factory is located at Two Rivers, Wis. These works have recently been enlarged to nearly double their former capacity. We also operate a factory and warehouse at Middletown, N. Y., and we give Middletown delivery to all our eastern customers. A full line of wood type patterns is kept at Middletown, and orders for wood type can be supplied for eastern customers from that point without waiting for goods to be forwarded from Two Rivers. This arrangement insures a saving of time and transportation charges.

This Catalogue, although not voluminous in size, will be found to contain the largest assortment of Wood Type faces ever shown under one cover. All the leading and popular faces will be found in this book. In many cases only one or two sizes are shown of a certain style, but printers should bear in mind that end-wood type can be made any size desired. If we should show a complete series of each style it would make a book too cumbersome to handle. A letter increases in width in the same proportion it does in length. For example, if a style is shown in 12-line and is 2 inches wide, the same letter in 15-line would be 2½ inches wide, the increase in size being ¼ each way.

Not finding what you want in this book, let us know your needs. We can furnish you anything in the line of Wood Type or Printers' Furniture.

THE HAMILTON MFG. CO.

Successors to
WM. H. PAGE WOOD TYPE CO., of Norwich, Conn.
S. SIMONDS & CO., of Chicago, Ill.
MORGANS & WILCOX MFG. CO., of Middletown, N. Y.

Main Office and
Factory, TWO RIVERS, WIS.
Eastern Factory
and Warehouse, MIDDLETOWN, N. Y.

Directions for Ordering Wood Type.

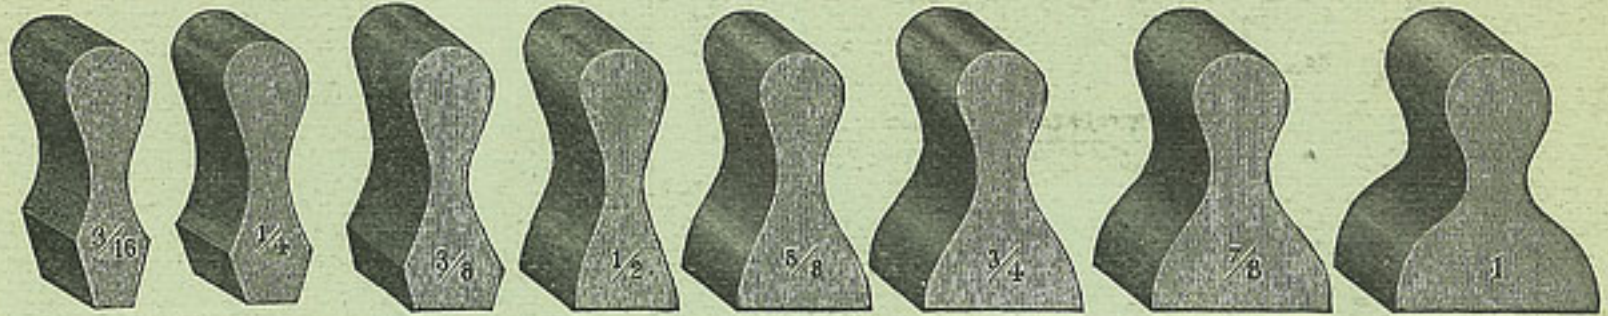

The prices for all sizes of each style of type shown in this book can be found in the accompanying price list on opposite page. The left-hand column gives the size of type or lines pica. The letters L, M, N, etc., at the top of table give the class to which the letter belongs, and the figures in the different columns give the price. The Scale of Fonts gives the number of letters in the different-sized fonts.

Always state whether *caps* alone are wanted, or *caps and figures*, or *caps, lower case and figures*, or *caps and lower case*, and how large a font or number of A's.

Give full directions for shipping, unless it is desired to leave the matter to us, in which case we will ship the cheapest way, freight or express.

STAMP MOULDINGS.

WHERE ORDERS ARE OF SUFFICIENT SIZE, WE WILL SUPPLY OTHER SHAPES, IF DESIRED, WITHOUT EXTRA CHARGE.

PRICES OF STAMP MOULDINGS.

	UNVARNISHED.	VARNISHED.	POLISHED.		UNVARNISHED.	VARNISHED.	POLISHED.

3 1/2 cents per yard for cutting into small sizes. This price is subject to the same discount as applies on each kind of moulding.

Mouldings can be finished in the natural color of the wood, or in any color desired. Unless otherwise stated, the polished and varnished mouldings will be finished dark red, in 24-inch lengths.

RUBBER STAMP SUPPLIES.

WE MANUFACTURE A COMPLETE LINE OF RUBBER STAMP MAKERS' SUPPLIES, SUCH AS

Mouldings,
Mounting Strips,

Grooved Holders,
Stamp Boxes,

Rubber Type Cases,
Beveled Alphabets, Etc.

We will be pleased to quote prices on any special work which may be submitted to us. Our polished moulding surpasses anything ever placed on the market. Any special moulding can generally be furnished without extra charge if a sufficient supply is ordered.

SPECIAL WORK DONE FOR STAMP MAKERS.

MOUNTING STRIPS.

Very smoothly finished by special machinery, and cut in yard lengths or other sizes, if desired. A pica is one-sixth of an inch.

	OILED.	VARNISHED.	POLISHED.
2 line pica, per yard.....	\$.03	\$.04	\$.04 1/2
3 to 5 line pica, per yard.....	.04	.05	.05 1/2

HAMILTON'S CUTTING-STICK FOR PAPER CUTTERS.

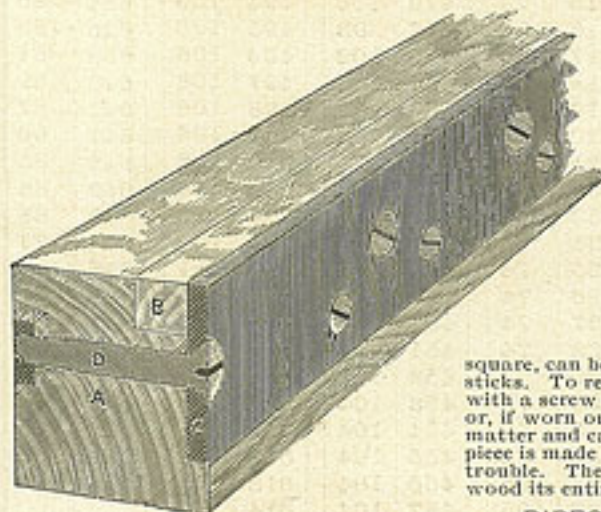

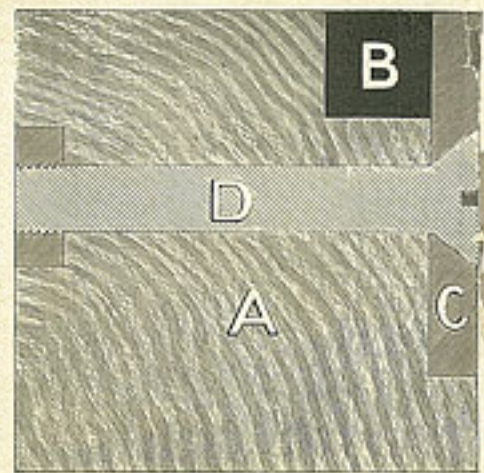

No device has ever been offered the trade which has met with greater success. Thousands are now in use and we have yet to hear of one that is not satisfactory. The best printers and binders in the country are equipping their machines with them. There is a saving of over 80 per cent. of the cost of Cutting Sticks after the first purchase. For example: The main body-piece with four dozen strips costs \$6.00. Four dozen ordinary cutting-sticks, at \$1.50 per dozen, will cost the same amount. When future strips are ordered the cost is 25 cents per dozen, and the same amount of cutting surface is obtained as with a dozen regular cutting sticks at \$1.50. Besides, there is a considerable saving in transportation charges, one dozen strips weighing less than a single cutting-stick. After fitting the main body-piece to your machine, no future measurements are required, as all our strips are made a uniform size, and it is only necessary to give the length required.

DESCRIPTION.—Our Cutting Stick consists of a main body-piece A, which has a groove or recess cut the entire length of same to receive a small strip (B), 5-16 of an inch square. This removable strip is the cutting surface and is held in place by a steel clamp C, which is drawn up by the bolts D. This removable strip being square, can be used on four sides, thus giving the same cutting surface as large-sized sticks. To remove the strip from body-piece, it is only necessary to loosen the bolts with a screw driver, when the strip can be turned over and a new surface presented; or, if worn out, a new strip can be inserted. The act of changing is a very simple matter and can be done by any boy able to handle a screw-driver. The main body-piece is made to fit any paper cutter, and when properly fitted there is no further trouble. The body-piece cannot warp, as the strip of steel, securely screwed to the wood its entire length, holds it fast and makes it utterly impossible for it to warp.

DIRECTIONS FOR ORDERING.

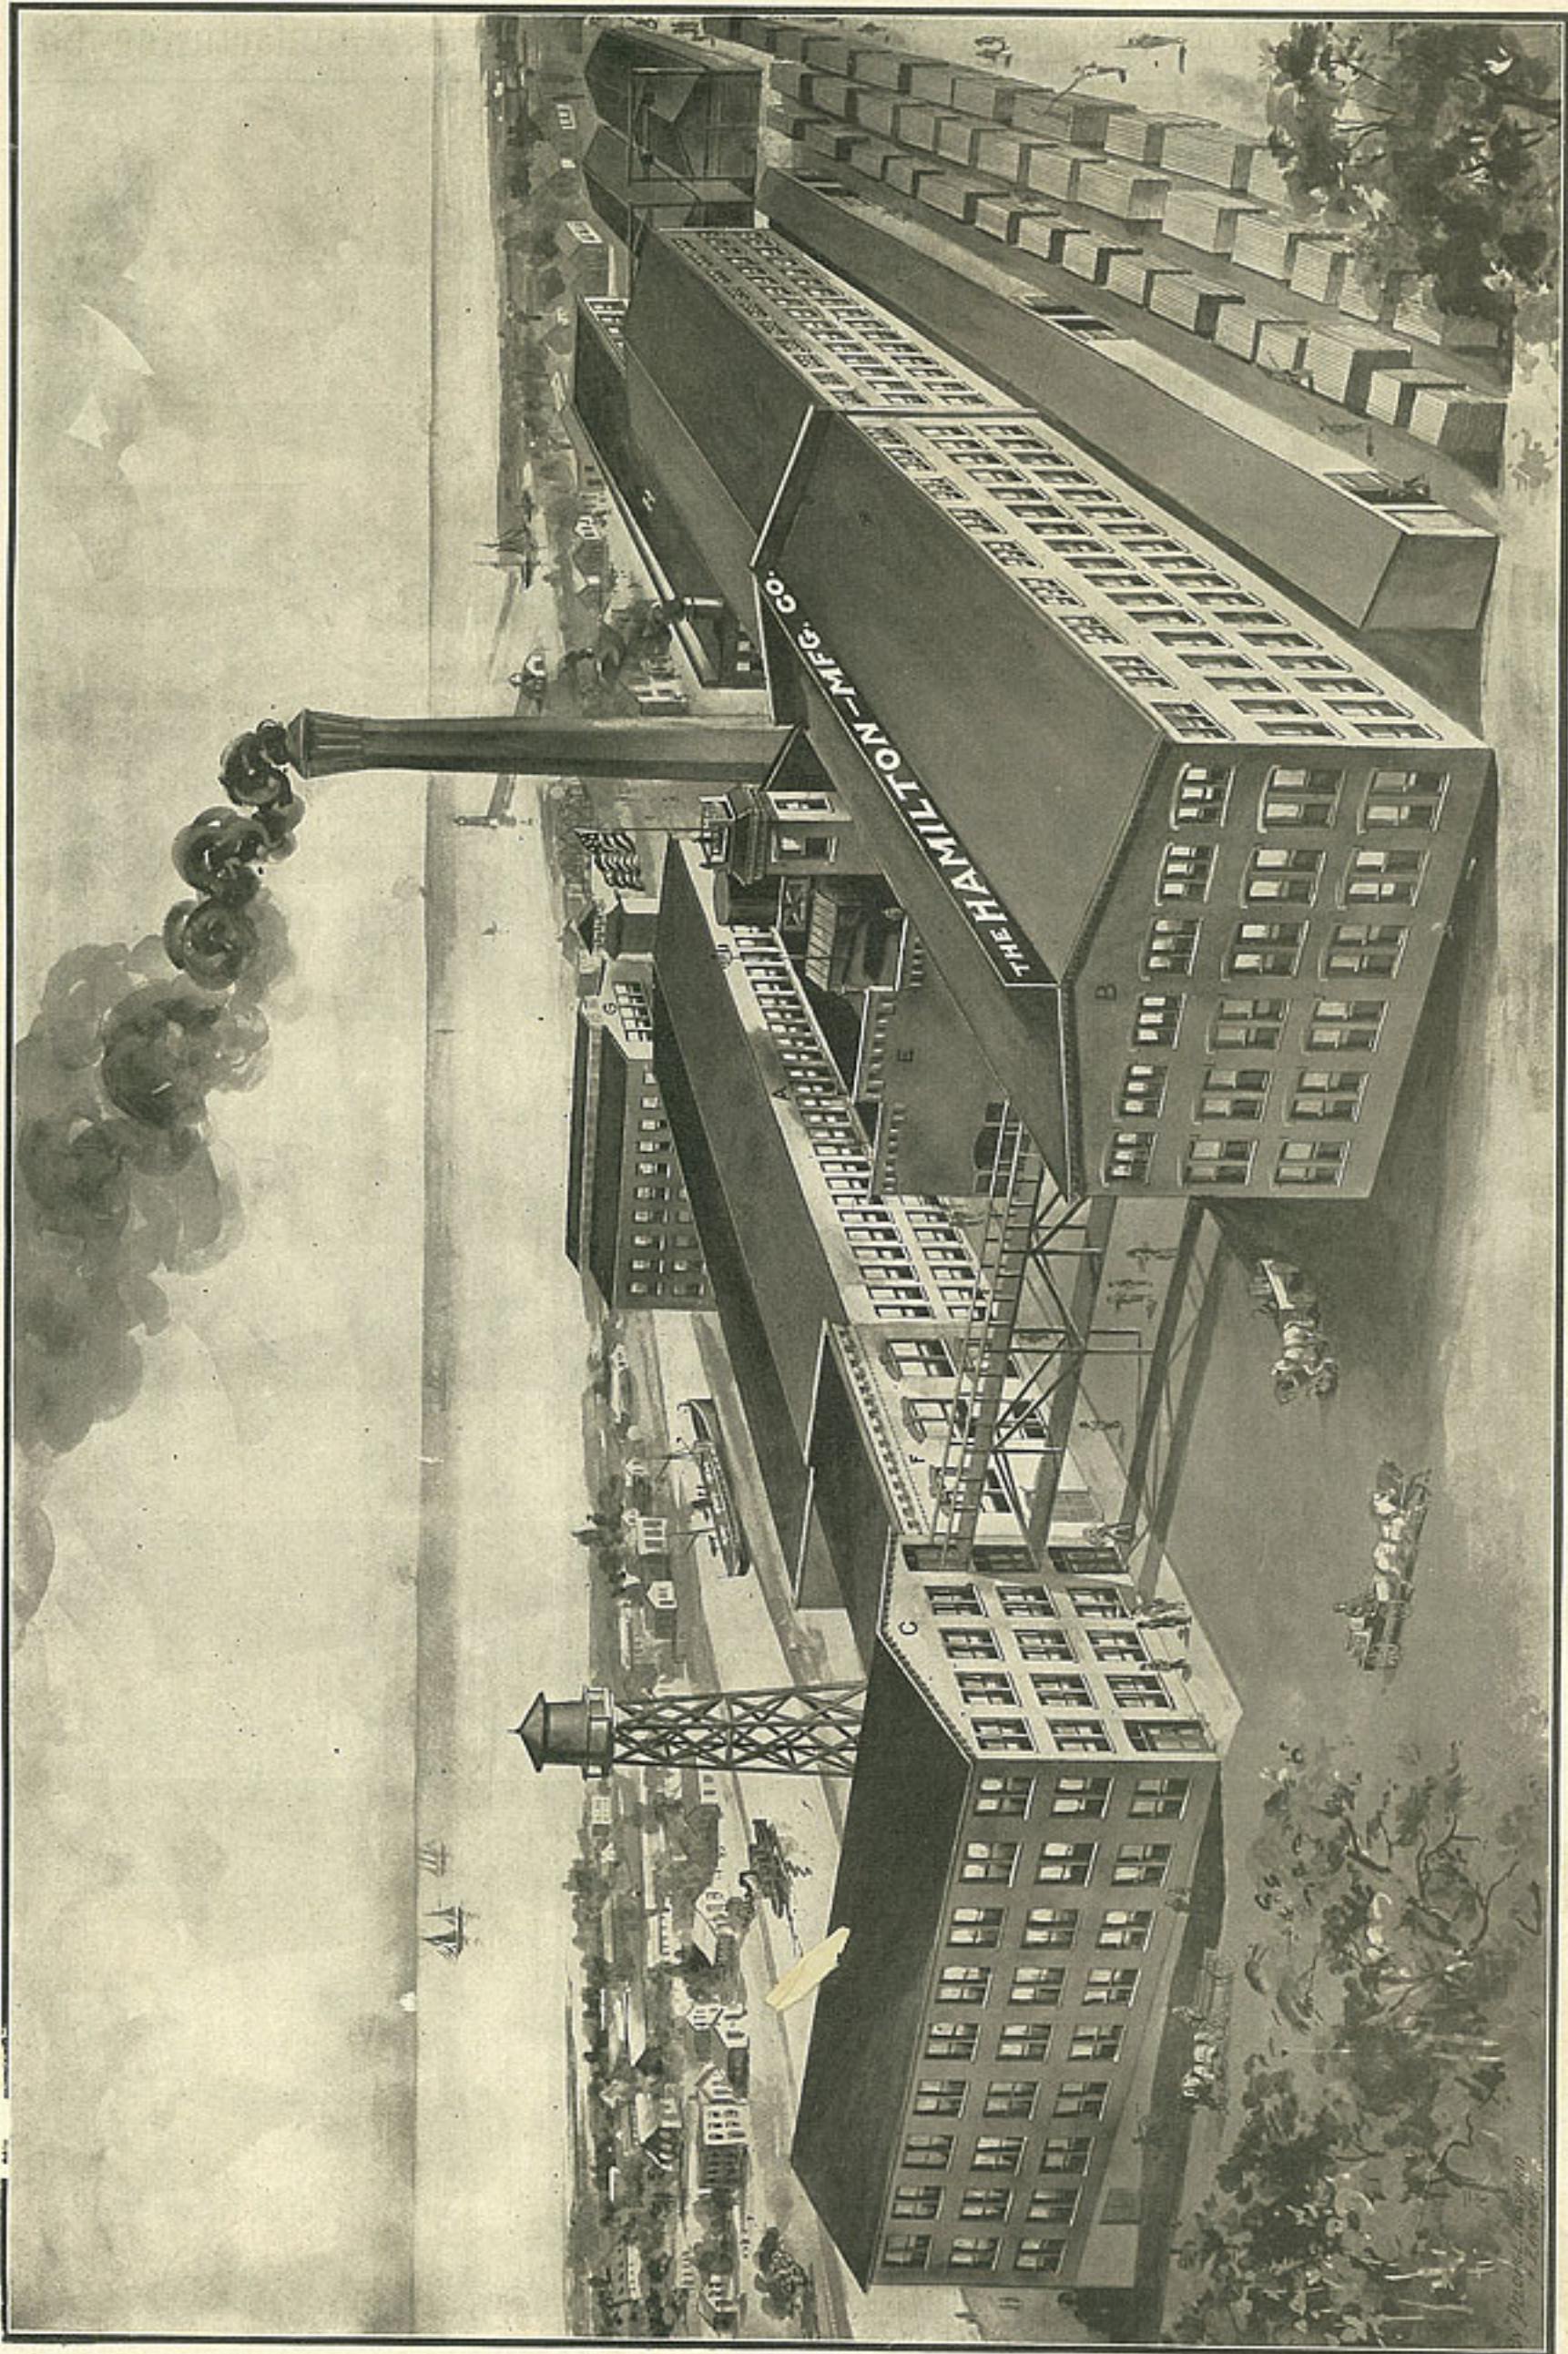

—In ordering a body-piece for your cutter: First—give size square that the stick is to be. Be particular on this point and see that the slot in the machine is measured accurately. Second—give length of stick over all. Third—how far from the front edge of the stick does the knife strike. Fourth—state whether the shear of the knife is from right to left or left to right when facing the machine. In ordering the strips it is only necessary to give the length of stick, as we cut them all to a standard and have but one size.

The Prices given to the left are Net.

NEW SERIES OF FLORAL BORDERS.

This Series of Floral Borders consist of 12 separate characters as shown below, and each separate character can be worked into a border, combined with a rule, or two or more characters can be combined with pleasing effect. These borders are not stamped like ordinary wood borders, but they are machine and hand carved, therefore a little higher priced than the regular stamped borders. The handsome appearance and the pleasing effects produced, and the variety of the forms that can be worked out will more than compensate for the increased cost over plain labor saving border.

18 Extra Letters accompany each Font of No. 236, which includes one each of all Logotypes or Double Letters.

Specimens of Wood Type manufactured by The Hamilton Manufacturing Company.

We present herewith a new script face, which will be found very effective on wrapping paper and in fine poster work. We wish to call particular attention to the fact that this is the first script face which we have brought out that is set on SQUARE bodies like ordinary wood type. This is of great importance, as much time is usually lost in setting up the script type with beveled bodies. The square bodies also enables us to list this script at a lower price than any other script face.
