UNITED STATES PATENT OFFICE.

WILLIAM W. JACKSON, OF PHILADELPHIA, PENNSYLVANIA, ASSIGNOR TO
FARMER LITTLE & CO., OF NEW YORK, N. Y.

DESIGN FOR A FONT OF TYPE.

SPECIFICATION forming part of Design No. 13,834, dated April 3, 1883.

Application filed February 3, 1883. Term of patent 7 years.

To all whom it may concern:

Be it known that I, WILLIAM W. JACKSON, of the city and county of Philadelphia, Pennsylvania, (assignor to FARMER LITTLE & Co., of New York, N. Y.,) have invented and produced a new and original Design for a Font of Printing-Type, of which the following is a specification.

The nature of my design is clearly shown in the accompanying typographic impression, to which reference is made; and it consists of an ornamental letter shaded upon the right and bottom by a series of light inclined lines following the configuration of the letter. In the letters A, H, K, M, N, P, R, and X the left-hand portion of the letters is extended below the line. The F, P, S, T, and Y are also extended below the line. The right-hand por-

tions of the H and N are extended above the line, and in the V and W the right-hand portions of the letters are lower or shorter than the left-hand portions. In the C, E, F, G, I, J, K, L, P, R, S, T, and Q the inclined side termination is found.

In the numerals the character of the design is preserved, the 3, 4, 5, 7, and 9 extending below the line and the 6 above the line.

The character of the design is also preserved in the lower-case and punctuation-marks.

Having now set forth my invention, I claim— The design for a font of printing-type, as shown and described.

WM. W. JACKSON.

In presence of—

J. J. LEIKENBERGER,
WM. BECKER,
