UNITED STATES PATENT OFFICE.

CHARLES E. HEYER, OF CHICAGO, ILL., ASSIGNOR TO ARTHUR M. BARNHART,
ALSON E. BARNHART, AND CHARLES E. SPINDLER, OF SAME PLACE.

DESIGN FOR PRINTING-TYPE.

SPECIFICATION forming part of Design No. 13,315, dated September 26, 1882.

Application filed April 18, 1882. Term of patent 14 years.

To all whom it may concern:

Be it known that I, CHARLES E. HEYER, a citizen of the United States, residing in the city of Chicago, county of Cook, and State of Illinois, have invented and produced a new and original Design for a Font of Printing-Types, of which the following is a specification, reference being had to the accompanying typographical illustration, forming a part hereof.

The character of the design is a heavy face of a compressed so-called "old-style" cut; and it consists of capitals, lower-case, figures, and points. A special feature of the letter is that on the capital letters A K M N R V W Y and the lower-case k v w y, the heavy or main stroke, wherever it connects with or runs through another part of the letter, forms to a

concave point from either side. The capital letters A H have a triangular center or cross line, which is rounded or filled in the center on top of said line. The center flags of capitals E and F are on a slanting cross-line to connect with the main stroke. The flags of capital J and S and lower-case f j y have a pointed triangular shape. The center of capitals K and R is disconnected from the main stroke of the letter. The cross-line of lower-case e is slightly curving upward.

I claim—

The design for a font of printing-types, as shown and described.

CHARLES E. HEYER.
