TRADE MARK.

Monograms, Crests, Ribbons, Scrolls, And other Designs.

Presented by Conrad Wm Schmidt (F.A. Glaeser.)

Manufacturer of Coach and Railway Varnishes and Colours.

The designs in this book have been especially drawn for and are the Copyright of M.F.A. Glaeser

Carpenters Road, Stratford, London. E.

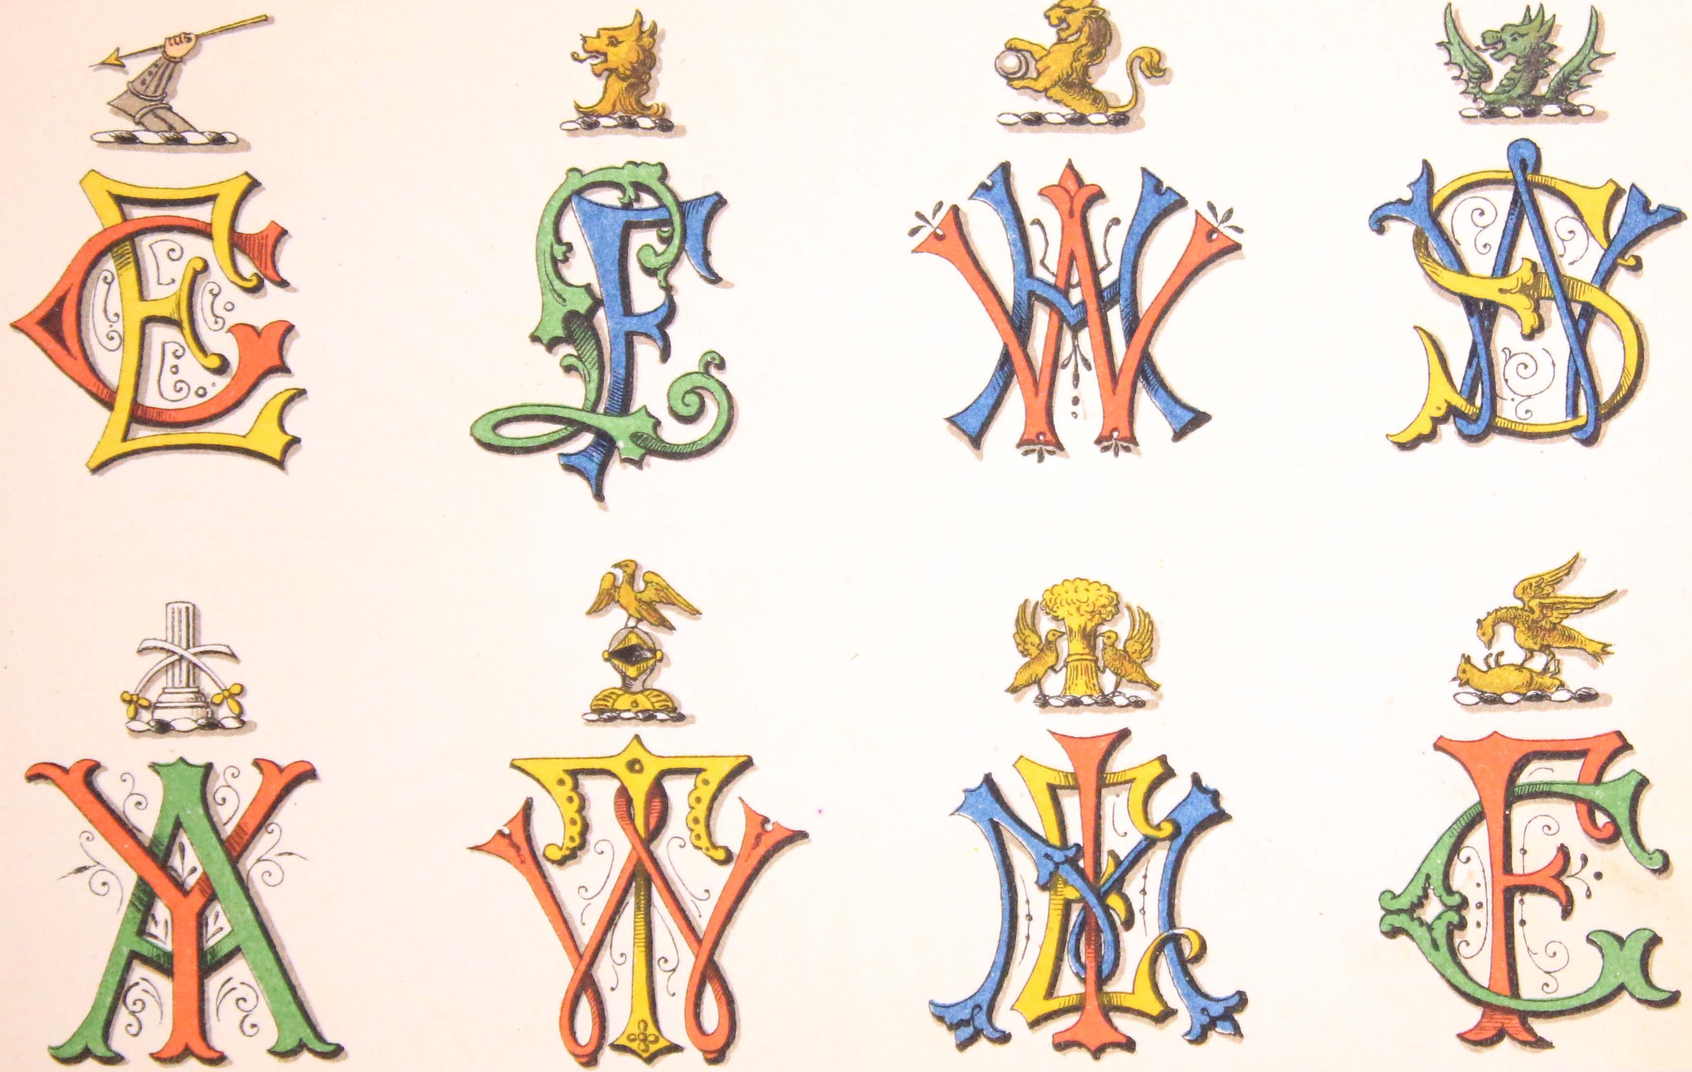

The fashion of placing Crests, Monograms, or Mottos on all kinds of carriages is daily growing in popularity, and frequently having heard the remark in the Trade:

"It is so difficult to get tastily arranged monograms, etc.", it has induced me to have this small album of really nice designs prepared for the use of my customers.

I present the little book to you in the hope that you may find it useful. Should you at any time desire to use any of the designs, do not destroy the book by cutting it, but send me a postcard stating the number of the page on which the one appears that you wish to use, and I will willingly forward you an outline of same by post.

Yours faithfully,

Conrad Wm. Schmidt (F. A. Glaeser).
